Nitya,

Bhaskar shared the news about your father's death. Many condolences; I know it's hard - even at such an amazing age. I have had the opportunity since to look at his work – and talk to people who were here when he visited Fitz. There is a lot of warmth and admiration.

We flew the College flag at half mast when we heard and I wrote to the fellowship including all retired and honorary fellows.

It would be great to meet you ..we must sort that!

With my best wishes,
Sally
