Subject: Beloved Professor

Revered Dr.Soumya Swaminathan,

Sorry to have heard about the demise of your Father and beloved Professor Dr.M.S.Swaminathan who was very kind to everyone from all sections of the community.

He never differentiates the people.

The country has lost the Veteran Agriculture Scientist of India who saved millions of the population from hunger and starvation.

I am working in Ethiopia Dr. I understand that you resigned from your job at WHO due to taking care of your father and the Research Foundation.

Your father used to say of three daughters and grandchildren too.

The late Vice Chancellor B.B. Sudaesan has introduced me to Professor since 1990.

I met your father in Kottupuram near Dr.M.S.Subbulakshmi's house before the Taramani MSSRF campus.

Professor used to invite me to all occasions and Functions.

Professor invited me to attend the Climate Change Conference when the late President Pranab Mukherjee was honored as the Chief Guest.

Professor has left his legacy and his intellectual capital to this nation.

I published books for which prof wrote Foreword and supported me to a greater extent.

Professor was a motivator, mentor, guide, and philosopher to me.

Professor soul be rest in peace Dr.

Regards

Senapathy

Ethiopia
