Dear Dr. Soumya,

You may remember me—Nat Kav from the University of Alberta. I led the IDRC project with MSSRF 2010-2014.

My wife Raji and I offer our deepest and personal condolences on the passing of Professor M. S. Swaminathan. His passing has left a void that cannot be filled. We consider ourselves blessed to have interacted with him on numerous occasions before, during and after the project. We fondly recall him visiting our house in Edmonton in 2010. Words cannot summarize his greatness and contributions to the betterment of humanity. His legacy will live on.

Once again, our deepest sympathy and condolences to you as well as the rest of the family.

Sincerely,  
Nat
