Subject: Re: Photo from Prema

Esteemed daughter of my dearest Uncle, Dr. M. S. S., I am Prof. Prema, served in Alagappa University for over 35 years, like his fourth daughter. I am extremely sad to learn the demise of him. He is a great scientist par excellence, a great humanist, a wonderful human being. I have no words to express my grief. I have stayed in his house several times. Both Minaji and Uncle treated me as their own daughter. Both of us are August born and he related to my maternal uncle's sambandhi (late) Dr. Venkata Subramaniam. He told me Dr. M. S. Swaminathan is his uncle's son. I have worked with Minaji for over two decades. Both of them were highly hospitable. When my daughter while studying in SASTRA visited his office he treated her with same affection. Will send that photograph. My heart is very heavy. Praying to God to give his family to bear loss which is irreplaceable.
