Subject: NYTimes: M. S. Swaminathan, Scientist Who Helped Conquer Famine in India, Dies at 98

Dear Soumya

I don't have your newest email but I wanted to send my sincere condolences about the passing of your father. He must have been incredibly proud of your accomplishments as we are of his and yours both.

Keep in touch and forward your new contact info. I hope to be back in India next year and would love to reconnect.

Roger
