## Message

Professor MS Swaminathan, an illustrious agricultural scientist, who is widely known as the Father of India's Green Revolution passed away for heavenly abode at the age of 98 on 28.09.2023 at his residence in Chennai. Professor Swaminathan's commitment to food security and sustainable agriculture has earned him great respect in India and on the world stage. The Food and Agricultural Organization said his demise had brought an "end to an epoch". The State Agricultural Technologists' Service Association (SATSA), West Bengal always had motivating patronage from Professor Swaminathan and we often delighted to receive preface from him for our NAAS-rated scientific journal, "SATSA MUKHAPATRA - Annual Technical Issue" (ISSN 0971-975X), published annually. The SATSA, West Bengal family prays for peace of the departed soul and strength to the bereaved family members.
