Subject:

Dear Dr Saumya I am connecting you with the chairman of Nestke India . Nestle is the leading nutrition company in India. As they explore nutrition needs of the Bharat part of India in smaller cities across the country - I thought you could have a conversation with Suresh and his team. As India's leader in nutrition we must think about the future nutrition needs of our billion plus people. Today we know diseases like anaemia, diabetes and even heart disease can be prevented by correct nutrition. So the conversation will be stimulating as we think about the future. I am currently on the board of this company and Suresh is an inspiring leader. I hope they can gain from your vast experience and the knowledge of your foundation for the future nutrition needs of India. On another note please accept my sincere condolences on the death of your father the iconic MS Swaminathan recently. I was touched to see the tribute penned by Prime Minister Shri Natendra Modi which appeared in many newspapers across the country.

Thank you

Dr Swati Piramal
